**La qualità dei nostri prodotti è racchiusa
nella ricchezza delle tante esperienze
vissute in un viaggio lungo sessant'anni,
facendo sempre ciò che abbiamo amato,
sedie, sperimentando e rinnovandoci
con passione.**

La nostra è una storia dove le idee diventano sedie e le sedie diventano oggetti di vita, entrano in relazione con ambienti e persone, portano il valore della cultura artigianale italiana nel mondo. La nostra storia inizia sessant'anni fa. Il filo che la traccia è un filo d'acciaio, resistente, duttile e tenace. Nel tempo, lo abbiamo utilizzato per realizzare seggioline e banchi di scuola. Lo abbiamo proposto in sedie originali e ricche di tecnologia e design. Lo abbiamo piegato in forme in grado di interpretare le necessità e il gusto contemporanei. Lo abbiamo associato a materiali via via diversi che hanno definito il racconto del nostro design.

Dal 1960 siamo fedeli alla nostra passione, le sedie. Ma siamo curiosi e aperti: ci piace sperimentare, innovando e rinnovandoci. In questo lungo viaggio, abbiamo conosciuto molte persone e fatto esperienza. La forma e la qualità dei nostri prodotti sono il frutto delle relazioni che abbiamo intrecciato e del nostro imparare a fare, sempre meglio. Ogni pezzo è il risultato di un dialogo tra la nostra direzione artistica e i designer di tutto il mondo, tra idea e forma, tra tecnologia e artigianalità, tra estetica e comfort, tra made in Italy e gusto internazionale. Abbiamo creato sedie e tavoli intorno a cui riunire le persone. Abbiamo immaginato elementi di arredo che rendono gli ambienti accoglienti e originali.

La nostra produzione è italiana, da sempre. Negli anni, dall'Italia è arrivata in oltre 50 Paesi nel mondo. È merito dei nostri collaboratori, disponibili, attenti, veloci e della personalizzazione, che consente a interior designer, architetti, arredatori di realizzare ambienti unici e irripetibili. Le sedie e i tavoli che proponiamo esprimono la nostra fiducia nel design sostenibile, che supera la prova del tempo e dell'uso e avvicina le persone.

Questa è la nostra storia.
Ogni collezione ne racconta un capitolo.

“Centrare il prodotto giusto è il sogno di ogni azienda. Ma cosa significa? Per noi ha sempre voluto dire esprimere la nostra identità incontrando il gusto del cliente; ma oltre al concetto puramente estetico e alla funzione decorativa, sono fondamentali anche la sostenibilità, la durata e l'eticità. Nel sapersi muovere tra questi poli si è giocato e si gioca ogni giorno il successo dei prodotti firmati Arrmet.”
Daniele Venturato, CEO

The quality of our products lies in the wealth of all we have experienced in sixty years of life as a company, while always making what we loved – chairs – experimenting and innovating with passion.

Ours is a story in which ideas turn into chairs and chairs become objects of daily life, build relationships with places and people and take the value of Italian craftsmanship out into the world. Our story began sixty years ago. The common thread running through it is made of strong, supple, tough steel. Over time we used it to produce chairs and school desks. We made it into original chairs with a high technology and design content. We bent it into shapes to interpret contemporary requirements and tastes. We combined it with increasingly different materials that have left their mark on our design narrative.

Since 1960 we have been faithful to our passion, chairs. Yet we are curious and open-minded so we love to experiment, innovate and renew ourselves. Over this long journey we have met many people and gathered experience. The shapes and the quality of our products are the fruit of the relations we have formed and our ever better way of learning to do things. Each piece is the result of a dialogue between our art direction and designers across the world, between ideas and shapes, between technology and craftsmanship, between made in Italy and international taste. We create chairs and tables that bring people together. We envisage furniture that makes environments welcoming and original.

We manufacture in Italy and always have. Over the years our products have been exported to over 50 countries worldwide. Our helpful, attentive, speedy staff, combined with customisation enable interior designers, architects and decorators to create unique, one-of-a-kind interiors. The chairs and tables we offer demonstrate our faith in sustainable design that stands the test of time and use and brings people together.

This is our story.
And every collection represents a new chapter.

“Getting the product right is every company’s dream. But what does this mean? To us it has always meant expressing our identity whilst catering for customer taste; yet beyond pure aesthetics and decorative functionality, sustainability, durability and ethics are also fundamental. Being able to manoeuvre between these two poles has been and continues to be the key to the success of products bearing the Arrmet signature.”
Daniele Venturato, CEO Arrmet

Una storia di passione e curiosità
A story of passion and curiosity

1960

Gorizia, Italia

La nostra storia inizia qui, in una terra di confine, come un'avventura. Il desiderio di mettersi alla prova spinge i fondatori a sperimentare le lavorazioni con il metallo. I primi arredi sono destinati alla collettività: alle aule scolastiche, che ogni giorno accolgono i bambini tra banchi e sedie, alle navi, che apprezzano l'acciaio per le sue caratteristiche. Il nostro nome, Arrmet, racconta proprio questo inizio.

Gorizia, Italy

Our story begins here, as an adventure in borderland. The founders, eager to put themselves to the test, set about experimenting with processing metal. The first furniture produced was for community settings: school classrooms where children came every day to occupy the chairs and desks, and ships, where the characteristics of steel are valued. Our name, Arrmet, embodies this beginning.

1975

Manzano, Italia

Manzano è la “capitale della sedia”. Il materiale più utilizzato per la produzione è il legno. Arrmet si trasferisce proprio in questo ombelico del mondo e si specializza nella progettazione di sedie in metallo. Comincia in questi anni un inedito dialogo con i designer. Questi elementi distintivi, metallo e design, segnano la nostra storia e tracciano il solco di un grande successo commerciale.

Manzano, Italy

Manzano is the “capital of chair production”. The material most widely used to manufacture them is wood. Arrmet relocated here and specialised in designing metal chairs. Around this time we initiated a ground-breaking dialogue with designers. These distinctive elements, metal and design, shaped our story and paved the way to a highly successful business.

1985

Europa, Stati Uniti, Arabia Saudita

Il Salone del Mobile offre un palcoscenico ai nostri prodotti e ci mette a confronto, per la prima volta, con il mercato internazionale. Le richieste si moltiplicano e ci impongono un cambio di passo. Investiamo per completare la nostra capacità artigianale con processi industriali, che aumentano il livello produttivo. Sono gli anni della sintesi tra abilità manuali e macchinari all'avanguardia.

Europe, United States, Saudi Arabia

The Salone del Mobile provided a showcase for our products and allowed us to compete for the first time on international markets. Demand increased and we were forced to change pace. We invested in industrial processes to complete our craftsmanship, which led to an increase in production. These years were a combination of manual skills and state-of-the-art machinery.

1990

Plastica

I frequenti cambi direzionali mantengono vivo il nostro spirito curioso. Nel rinnovamento ci ancoriamo alla nostra curiosità e alla voglia di vivere a pieno il proprio tempo. Portiamo colore e fantasia alle nostre collezioni di arredi per interni ed esterni. Sperimentiamo nuovi materiali: la plastica.

Plastic

Frequent changes in management kept our spirit of curiosity alive. Renewal fuelled our curiosity and desire to live our days to the full. We brought colour and imagination into our indoor and outdoor furniture collections and experimented with new materials: plastics.

1997

Pocket

In quest’anno riusciamo nell’impresa di distillare la nostra tradizione, l’esperienza e la passione in una sedia senza tempo, che ci trasporta nel futuro, in soli due centimetri. ‘Tascabile’, funzionale, universale, Pocket ha fatto la storia delle sedie pieghevoli degli ultimi 20 anni. È elegante, divertente e minimale con una immediatezza unica, ma il suo valore innovativo è nel sistema di chiusura in polipropilene caricata con fibra di vetro. Lo ha sviluppato il nostro dipartimento di ricerca ed è un sistema unico al mondo.

Pocket

At this time we succeeded in instilling all our tradition, experience and passion in an evergreen chair, which in just two centimetres launched us into the future. Pocket, the ‘pocket-sized’, functional, universal chair has shaped the history of folding chairs over the last 20 years. Elegant, light-hearted, minimal and with a unique immediacy, its innovation value lies in its unique polypropylene and glass fibre closure system, which was developed by our research department.

2004

All’aperto

Quando sentiamo che un’idea è buona, cerchiamo di svilupparla. Sbocciano le collezioni di sedie e tavoli per l’outdoor, con cui portiamo all’esterno il pensiero che ha dato forma alle nostre collezioni per l’interno. Parole d’ordine: linearità, leggerezza e durevolezza.

Outdoor

When we feel we have a good idea, we seek to develop it. Collections of outdoor tables and chairs bourgeoned, taking the ideas that shaped our interior collections outdoors. Key features: linear, lightweight and durable.

2012

Tessuti e legno

Le nostre collezioni si arricchiscono di una nuova dimensione: la morbidezza. Tessuti e legno ci introducono nel mondo della sartorialità e della personalizzazione. Ci confrontiamo con una nuova opportunità di integrare artigianalità e industrializzazione. Il nostro saper fare prende la forma della qualità degli imbottiti “Made in Italy”. Architetti e interior designer possono realizzare con noi prodotti che raccontano il proprio stile e gusto personali.

Fabrics and wood

Our collections take on a new dimension: softness. Fabrics and wood introduced us into the world of tailoring and customisation. We were faced with a new opportunity to integrate craftsmanship and industrialisation. Our know-how was applied to high quality “Made in Italy” padded furniture. Architects and interior designers were able to create with us products that reflect their style and personal tastes.

2013

Strike

Chicago, Toronto, Londra, Milano, Johannesburg, Sydney, Seoul sono alcune delle città in cui approda Strike. L’abbiamo progettata internamente. Abbiamo interpretato il fascino garbato dello stile antico con un linguaggio contemporaneo e abbiamo realizzato una seduta iconica. Strike è il nostro prodotto giusto, il sogno che diventa realtà.

Strike

Chicago, Toronto, London, Milan, Johannesburg, Sydney, Seoul are just some of the cities in which Strike has landed. We designed it internally. We interpreted the gentle charm of old style using a contemporary approach and came up with an iconic chair. With Strike we really hit the mark, and a dream came true

2021

Progettisti

Collaboriamo con designer da tutto il mondo: Tomoya Tabuchi, Note Design Studio, Welling Ludvig, Ludovico + Roberto Palomba, Kensaku Oshiro, Sylvain Wiellenz e LucidiPevere. Ciascuno è autore di un prodotto che ha qualcosa di nuovo da raccontare e una personalità unica da esprimere. Ogni prodotto è un compendio di funzionalità, estetica e qualità. Rappresenta la nostra visione osservata con gli occhi di chi ha background, esperienze e stili diversi. Lavoriamo con loro per valorizzare la loro creatività e il nostro saper fare. Lavoriamo con loro per raccontare una storia dove le idee diventano sedie e le sedie diventano esperienza. Questo circolo virtuoso si alimenta da sessant’anni con la passione e la curiosità. In Arrmet, abbiamo sempre qualcosa di nuovo da raccontare.

Designers

We collaborate with designers from all over the world. Tomoya Tabuchi, Note Design Studio, Welling Ludvig, Sylvain Wiellenz, Ludovica + Roberto Palomba, Kensaku Oshiro and LucidiPevere, just to name a few. Each one is the originator of a product that has something new to say and a unique personality to express. Every product is a compendium of functionality, aesthetics and quality. It represents our vision observed through the eyes of designers with different backgrounds, experience and styles. We work alongside them to make the most of their creativity and know-how. We work alongside them to tell a story in which ideas turn into chairs and chairs become experience. This virtuous circle has been kept going for sixty years, fuelled by passion and curiosity. At Arrmet, we always have something new to say.

Belle

IT

Belle è una collezione di poltroncine e sgabelli destinati agli spazi del contract. È caratterizzata da un sedile tondo e da uno schienale curvo e avvolgente, che abbraccia chi vi si accomoda. Completamente rivestita, Belle si personalizza nelle finiture e nei basamenti per adattarsi ai diversi ambienti – dai luoghi della convivialità a quelli di lavoro. La versione poltroncina è disponibile con quattro gambe in legno o metallo, base a slitta, ruote e trespole girevole; lo sgabello con gambe in metallo, supporto regolabile a colonna centrale o girevole su trespole in legno.

EN

Belle is a collection of chairs and stools designed for contract spaces. It features a round seat and curved, wraparound backrest that embraces the body. Completely upholstered, Belle is customised through its finishes and bases to suit different environments – from restaurants and bars to workplaces. The chair version is available with four wooden or metal legs, sled base or swivel base with casters and trestle; the stool with metal legs, central column with adjustable support or swivel wooden trestle base.

Máni Armshell

IT

Máni Armshell è una poltroncina in polipropilene dai contorni morbidi e avvolgenti su cui sedersi comodamente, assecondando anche le posture più rilassate. Diversa dalle altre sedute della collezione Máni, di cui fa parte pur essendo a tutti gli effetti un altro progetto, ne condivide la versatilità. La scocca in polipropilene, ricavata da un unico stampo, si accompagna a un piccolo sedile da scegliere in legno, tappezzato o in polipropilene tono su tono, in una tinta leggermente più scura. Máni Armshell è disponibile anche nella versione tutta tappezzata e si combina a dieci basamenti diversi per sedia o sgabello: dalle gambe in legno o metallo alla slitta, dal trespolo girevole alle ruote.

EN

Màni Armshell is a polypropylene chair featuring soft, curving contours, that provides comfortable seating to support even the most relaxed postures. Although different to other chairs in the Màni collection, which it is a part of although it is essentially another project, it does share the collection's extreme versatility. The polypropylene shell produced from a single mould is accompanied by a choice of small seats made of wood, upholstered or in tone-on-tone polypropylene in a slightly deeper shade. Màni Armshell, which is also available in a completely upholstered version, can be combined with ten different chair or stool bases featuring wooden legs, metal sled base, swivel trestle base or casters.

Máni

IT

La scocca in polipropilene, tappezzata oppure in multistrato 3D impiallacciato frassino, si abbina a 16 diversi basamenti di sedia e sgabello, disponibili in acciaio, alluminio o legno massello di frassino. La forza del sistema Máni risiede nella trasversalità di utilizzo delle sedute, adatte al settore dell'ospitalità e residenziale, per l'esterno e per l'interno. Sono perfette anche per la collettività grazie agli accessori: sistemi d'aggancio, braccioli, tavolette, panche componibili e carrelli per la movimentazione. Le versioni con scocca in polipropilene e legno possono essere rifinite con cuscino fisso o controscocca tappezzata.

EN

Both polypropylene, upholstered or 3D ash veneered plywood shell can be combined with 16 different chair and stool bases available in steel, aluminium or solid ash. The strength of Máni system lies in the transversal use of the seats, suitable for indoor and outdoor for hospitality and residential spaces. Perfect also for the community areas thanks to professional accessories such as hooking devices, armrests, tablets, modular bench system and trolleys for handling. Polypropylene and wooden shells can be refined with a fixed cushion or front upholstery.

Kiyumi

IT

Il disegno lineare ed essenziale della collezione Kiyumi è il risultato di una grande complessità progettuale. Sulla struttura sinuosa in tubolare d'acciaio si innestano il sedile e uno schienale curvo, in multistrato impiallacciato di frassino oppure tappezzati in tessuto o pelle. Anche nella versione imbottita il telaio, elemento estetico prima che funzionale, rimane a vista, benché con viti nascoste. La collezione include sedia, poltroncina con braccioli, poltrona lounge e sgabello. Versatili, leggere e impilabili, le sedute disegnate da Tomoya Tabuchi sono adatte a diversi contesti, dalla casa agli ambienti del contract come bar e ristoranti, dove si fanno notare per stile e qualità costruttiva.

EN

The linear, minimalist lines of the Kiyumi collection are the result of a highly complex design project. The seat and curved backrest in ash veneered plywood or upholstered in fabric or leather are attached to a sinuous tubular steel frame. Even in the upholstered version the frame, aesthetic before being functional, remains visible although the screws are invisible. The collection includes chairs, small armchairs, lounge chair and stool. Versatile, lightweight and stackable, the seats designed by Tomoya Tabuchi fit into a variety of settings, from homes to contract environments such as bars and restaurants, where its style and the excellent construction stand out.

Cèpe

IT

Cèpe è una collezione di quattro pouf con la struttura in legno, l'imbottitura in poliuretano espanso, e il rivestimento in tessuto. Le dimensioni disponibili sono quattro: 55, 65, 90 e 120 cm, con la particolarità che all'aumentare del diametro, l'altezza del pouf non cambia. Così che si possano creare composizioni coerenti usando più pouf di misure diverse. Cèpe si adatta ai luoghi del contract, da solo o combinato con altri elementi, diventando uno sgabello aggiuntivo da affiancare al tavolo di un bar o a una scrivania per un meeting veloce, una seduta informale in una sala d'aspetto, un pratico elemento d'appoggio nel camerino di prova di un negozio.

EN

Cèpe is a collection of four poufs created by joining polyurethane foam to a wooden frame, then covering this with fabric. Available in four sizes – in diameters of 55, 65, 90 and 120 cm – coherent arrangements can be created by mixing and matching multiple poufs in different colours and sizes. Cèpe can be used in all contract settings, either on its own or combined with other elements, to provide an additional stool for placing next to a table in a bar or a desk for quick meetings, informal seating in waiting rooms, a practical surface for placing items on in store fitting rooms and much more.

Dam

IT

Dam è una collezione di sedute imbottite per l'uso in ambienti interni. Gli elementi tappezzati poggiano su basamenti in alluminio lucidato o verniciato, con o senza ruote piroettanti, per la versione poltroncina. Lo sgabello girevole e regolabile in altezza è fornito su base in acciaio inox satinato e poggia piedi cromato o verniciato. Le due fasce che compongono lo schienale avvolgono un sedile tondo e ben imbottito e svolgono due importanti funzioni: appoggio lombare e braccioli. È così che estetica e funzionalità si uniscono in un progetto adatto ad ogni tipo di ambiente: dalla casa, all'ospitalità, all'ufficio.

EN

Dam is a collection of padded seats for indoor use. The upholstered elements rest on swivelling bases made of polished or painted aluminium, with or without swivelling wheels, for the armchair version. The swiveling and height-adjustable stool is provided with a brushed stainless steel base and chromed or painted footrest. The two bands composing the backrest envelop a round and well padded seat and perform two important functions: lumbar support and armrests. This is how aesthetics and functionality come together in a project suitable for every type of environment: from home, to hospitality, to office.

Macka

IT

Ispirata al gioco svedese del “kasta macka”, in cui si fanno rimbalzare i sassi sulla superficie dell’acqua, la collezione Macka di Note Design Studio ha un aspetto rotondo e morbido. Nella sedia e nello sgabello con schienale e braccioli, i braccioli avvolgono il corpo in modo confortevole, mentre la caratteristica congiunzione con lo schienale è espressione di leggerezza ed eleganza. Macka è disponibile anche nella versione sgabello semplice, senza schienale e braccioli. Gli elementi imbottiti, schiumati ignifughi sono tappezzati e assemblati su una struttura in acciaio verniciato con piedini regolabili snodati. Per il loro aspetto invitante e le dimensioni contenute, le sedute della collezione sono ideali nei luoghi della convivialità.

EN

Inspired by the Swedish game of kasta macka, in which stones are skimmed across the surface of water, the Macka collection from the Note Design Studio has a smooth, round appearance. The chair and stool featuring backrest and armrests wrap comfortable around the body, while the characteristic joint with the backrest conveys a sense of lightness and elegance. Macka is also available as a simple stool without backrest and armrests. The flame-retardant, polyurethane foam elements are upholstered and assembled onto a painted steel frame featuring tilt-adjustable feet. Due to their welcoming appearance and limited size, the seats in the collection are ideal for use in restaurants and bars.

Randa

IT

Randa è una collezione di sedute da esterni composta di sedia, poltroncina, poltrona lounge e sgabello in due altezze. È disponibile in due varianti: nella versione classica, l'anima è in acciaio verniciato mentre la scocca è realizzata in corda nautica intrecciata. Nella versione nuda, visivamente leggera ed essenziale, il tondino d'acciaio diventa protagonista; confortevole anche senza la scocca in corda, la seduta può essere completata dai cuscini nei nuovi tessuti outdoor. Esteticamente trasversale perché perfetta sia all'esterno sia nei contesti sospesi tra in e out, Randa è realizzata con materiali resistenti all'umidità, alla salsedine e ai raggi del sole ed è quindi indicata per tutti gli spazi all'aperto.

EN

Randa is an outdoor seating collection comprising a chair with and without arms, a lounge chair and stool in two heights. It is available in two variants: the classic version features a painted steel frame and woven nautical rope seat. On the bare version, which is visually lighter and more essential, steel rod plays the leading role; in this case, Randa is completed with soft, comfortable cushions produced in the new outdoor fabrics. Randa is aesthetically transversal because it is perfect for both outdoor use and in settings where indoor and outdoor spaces are linked and is produced from materials that are resistant to humidity, sea spray and the sun's rays, making it suitable for all outdoor spaces.

Strike

IT

Le linee razionali della struttura metallica delineano il profilo preciso e compatto delle imbottiture. Sharp arreda qualsiasi spazio d'attesa con stile essenziale ed elegante, assicurando la massima comodità nel minimo spazio. La collezione è composta da poltroncina e divanetto a due posti, anche accostabili. La struttura metallica diventa accento estetico se tinta in contrasto con le imbottiture, le quali sono tappezzate artigianalmente con tessuti selezionati oppure forniti dal cliente.

EN

The rational lines of the metal structure delineate the precise and compact profile of the paddings. Sharp furnishes any waiting area with essential and elegant style, ensuring maximum comfort in the smallest space. The collection consists in armchair and two-seats sofa, which can be easily placed one close to another. The metal structure becomes an aesthetic accent if dyed in contrast with the padding, which is upholstered by hand with fabrics finely selected or supplied by the customer.

-------------------------------------	--	-----------------------------

IT

Sharp è una collezione di imbottiti pensata per i piccoli spazi, in particolare d'attesa. Il nome allude alle sue linee nette ed essenziali, ma anche all'intelligenza di un sistema che si può combinare in base alle esigenze, accostando tra loro i diversi moduli per dare vita ad ambienti multifunzionali o suddividere aree complesse. La struttura sottile è in tubo quadro d'acciaio, da interpretare in base allo stile del contesto scegliendo tra le molte finiture a catalogo, dall'eleganza minimale del nero alla sofisticata preziosità di oro e ottone. La seduta, che esternamente richiama le linee razionali della base, verso l'interno ha invece forme morbide e tondeggianti che invitano alla seduta. Merito della cuscinatura imbottita, tappezzata artigianalmente in tessuto, pelle o ecopelle. La collezione si compone di poltrona, divano a due e tre posti, panca e panca con tavolino integrato.

EN

Sharp is a collection of upholstered seating conceived for small spaces, and particularly for waiting areas. Named for its clean, essential lines, as well as for the intelligence of a system that can be composed to suit requirements, combining the different modules to create multipurpose environments or to divide up more complex spaces. The slim frame in square tubular steel can be interpreted according to the style of the setting, choosing from the numerous finishes in the catalogue, from the minimalist elegance of black to the sophisticated refinement of gold and brass. The exterior of the chair echoes the rational lines of the base, while the interior features soft, rounded shapes that are altogether more inviting. This is achieved thanks to the cushioned upholstery, hand-crafted in fabric, leather or faux leather. The collection comprises an armchair, a two- or three-seater sofa, and a bench with or without a built-in coffee table.

Kabira

IT

Disegnata da Kensaku Oshiro, Kabira è una collezione di poltroncine e sgabelli dall'aspetto compatto e confortevole. La scocca avvolgente è in multistrato di legno di frassino, a scelta verniciata naturale o in tinta, oppure tappezzata con tessuti, pelli ed ecopelli, anche forniti dal cliente. Ampia la scelta delle basi, sia per tipologia – gambe, slitta, girevole o su ruote – sia per materiale. La grande varietà di sedute e le possibilità pressoché infinite di personalizzazione fanno di Kabira una collezione versatile, capace di adattarsi ad ambienti dallo stile e dalla funzionalità anche molto diversi.

EN

Kabira is a collection of compact, comfy looking small armchairs and stools designed by Kensaku Oshiro. The wraparound shell made of ash plywood can be painted or upholstered in fabric, leather and eco-leather, which may also be supplied by the customer. It offers a wide choice of frames both in terms of type – legs, sled-base, swivel or on casters – and materials. The vast variety of seats and almost infinite customisation possibilities make Kabira a versatile collection, able to adapt to environments that are very different in terms of style and functionality.

Clivo

IT

Ispirata a forme tonde e curve morbide, Clivo di LucidiPevere è una collezione di tavoli pensati per accompagnare sedute dall'estetica diversa, dalla più essenziale alla più decorativa. I tavoli si compongono di un piano rotondo o quadrato con fusto centrale a sezione arrotondata e base a quattro razze, oppure rettangolare con doppia base. Disponibile in tre altezze, quella rettangolare con doppia base in due e diverse finiture, dall'alluminio naturale lucidato a quello verniciato, Clivo è un tavolo versatile che affianca con discrezione qualsiasi seduta. Realizzato interamente in alluminio, si può personalizzare scegliendo per il piano l'HPL, l'impiallacciato di frassino o il marmo.

EN

Inspired by round shapes and smooth curves, Clivo by LucidiPevere is a collection of tables designed to match with chairs of different aesthetics, from the most essential to the most ornamental. The tables are composed of a round or square top and a central, round cross-section leg and four-spoke base, or rectangular top with double base. Available in three heights and several finishes, from natural polished to painted aluminium, Clivo is a versatile table that discreetly matches with any type of seating. Made entirely of aluminium, it can be customised by choosing HPL, ash veneer or marble for the top.

Piana

IT

Piana è una collezione di tavoli in cui la materia è resa protagonista, con colori e finiture che si estendono dal piano all'intera struttura. I tavoli Piana, di diverse dimensioni, sono costituiti da un telaio in acciaio che assume diverse forme: con piano rotondo e fusto centrale oppure con piano rettangolare o ovale sorretto da cavalletti. Un oggetto integro, solido e monomaterico che architetti e interior designer possono completare a piacere fondendolo nei propri progetti, perché a seconda della forma e della finitura scelta il tavolo cambia.

EN

Piana is a collection of tables in which the material plays a predominant role, with colours and finishes extending from the top over the entire frame. Available in various sizes, Piana tables are composed of a steel frame in a variety of shapes: round top with central pedestal or rectangular or oval top supported by trestles. An integral, solid table constructed of a single material that architects and interior designers can complete as they wish and integrate into their projects, and which changes according to the shape and finishes chosen.

Virginia

IT
Audace e confortevole, morbida e rivoluzionaria, Virginia è un distillato di stile classico e contemporaneità. La seduta imbottita realizzata in schiumato ignifugo appoggia su una struttura essenziale a 4 gambe in acciaio cromato o verniciato oppure in legno massello di frassino. Lo schienale, disponibile in due altezze, è avvolgente. Le sedie e gli sgabelli della collezione Virgina garantiscono confortevolezza, resistenza e allo stesso tempo ingombri contenuti.

EN
Audacious and comfortable, soft and revolutionary, Virginia is a fascinating classical-contemporary distillate. The upholstered seat, made of flame-retardant foam, rests onto an essential 4-legs frame made of chromed or painted steel or solid ash. The upholstered back, available in two heights, is enveloping. Virginia chairs and stools guarantee comfort, strenght and at the same time reduced space use.

Klapp

IT

Tecnologia, leggerezza e linearità si fondono in questa sedia pieghevole, progettata da Steffen Kehrle e realizzata senza saldature e con finiture di massima qualità. Sedile e schienale sono in multistrato di frassino. I due giunti di assemblaggio, in tecnopolimero stampato a iniezione, permettono di innestare lo schienale direttamente sulle gambe posteriori, così che la sedia si richiuda in uno spazio minimo. Senza sbavature i raccordi della struttura in tubo di alluminio, che non presentano le imprecisioni causate dalle normali saldature.

EN

This folding chair designed by Steffen Kehrle and manufactured without any welding, with top quality finishes, is a fusion of technology, lightness and linearity. The seat and backrest are made of ash plywood. The two injection moulded techno-polymer assembly joints allow the backrest to be inserted directly into the back legs, so it takes up minimal space when folded. The joints on the aluminium tube frame do not present the typical irregularities of normal welding.

Doc

IT

Nate per catturare al primo sguardo chi entra in uno spazio, le sedute della collezione Doc rileggono in chiave moderna un modello classico. Danno il meglio di sé viste di spalle: nello schienale, infatti, il tessuto incornicia una superficie in legno dal touch naturale cui sono fissate le gambe posteriori, in un equilibrio materico dal mood caldo e accogliente. Sedia, poltroncina e sgabello Doc uniscono a una struttura in legno di frassino imbottiture espanse e rivestimenti ignifughi. Morbide e comode, personalizzabili con tutti i tessuti e le pelli a Collections 2021, le sedute Doc sono ideali in qualsiasi contesto.

EN

Designed to immediately catch people's eye as they enter a room, the Doc collection chairs offer a modern interpretation of a classic model. They are best seen from the back, where the fabric on the backrest forms a frame around a wooden surface, which has a natural feel and to which the back legs are attached, balancing the materials and creating a warm, cosy mood. The Doc chair, small armchair and stool combine an ash wood frame with fire-resistant padding foam and upholstery. Soft and comfortable, customisable in all the fabrics and leathers in the catalogue, the Doc chairs are the ideal choice for any setting.

Pocket

IT

Pocket è una sedia pieghevole iconica ed essenziale che racchiude tutta la tradizione, l'esperienza e la passione di Arrmet. Sedile e schienale sono in poli-propilene o in multistrato di legno verniciato, mentre la struttura è in acciaio cromato o verniciato. Oltre a chiudersi nel minor spazio possibile, Pocket consente di ottimizzare gli ingombri in qualsiasi situazione, anche durante il trasporto, con i ganci e i carrelli per la movimentazione. La cerniera in polipropilene caricato con fibra di vetro è un sistema di chiusura unico al mondo, grazie al quale la sedia, da chiusa, occupa solo due centimetri. Pocket è disponibile anche con sedile tappezzato oppure con cuscino fisso.

EN

Pocket is an iconic, essential folding chair that embodies all the tradition, experience and passion of Arrmet. The seat and backrest are made of polypropylene or varnished plywood, while the steel frame is chrome-plated or painted. Not only does Pocket take up minimal space when folded, the use of couplings and a chair trolley ensure it also makes maximum use of space in all situations, even during handling and transportation. Thanks to a glass fibre-reinforced polypropylene hinge featuring a truly unique closing system, the chair occupies a width of just two centimetres when folded. Pocket is also available with upholstered seat or fixed upholstered cushion.

Una struttura essenziale in tondino d'acciaio verniciata disegna profili e volumi con una armoniosa simmetria fra vuoti e pieni. Le sedie e gli sgabelli Log sono adatti all'uso in ambienti esterni, ad eccezione della versione “plus” in cuoio, grazie al trattamento con fondo di zinco e vernici poliestere applicato su tutte le strutture in acciaio della collezione e sulle reti elettrosaldate della versione “mesh”. Le corde in pvc della versione “spaghetti” sono ignifughe e idrorepellenti. L'anima rinforzata al loro interno garantisce la resistenza alle alterazioni provocate dalle sollecitazioni del peso e dalle escursioni atmosferiche.

EN

An essential structure in painted steel rod designs profiles and volumes with a harmonious symmetry between empty and full. Log chairs and stools are suitable for outdoor use, excluding Plus leather version, thanks to a zinc coat and polyester paints treatment, applied to all the steel structures of the collection and to the electro-welding of the “mesh” version. The “spaghetti” pvc strings are fireproof and water-repellent. The reinforced core inside the ropes guarantees resistance to alterations caused by weight stress and atmospheric excursions.

	Sylvain Willenz	Cèpe p. 74–81	IT	Dal 2004, il designer Sylvain Willenz, con sede in Belgio, firma arredi, illuminazione e prodotti di design, per clienti internazionali. Nato a Bruxelles nel 1978, Sylvain Willenz ha vissuto consecutivamente negli Stati Uniti, in Belgio e nel Regno Unito. Sylvain ha conseguito un MA in Product Design al Royal College of Art di Londra nel 2003. Nel 2004 ha aperto il suo studio di progettazione, con sede a Bruxelles, in Belgio. Considerato uno dei creativi belga più influenti, Sylvain è stato nominato designer belga dell'anno nel 2009. Famoso per la sua estetica grafica, forte ma semplice, Sylvain è affascinato dalla produzione, dalla manifattura e presta grande attenzione ai dettagli. Originariamente desideroso di diventare un fumettista, Sylvain si è poi spostato sul design di prodotto. Nel corso degli anni, Sylvain ha sviluppato uno stile singolare di ligne claire, che infonde il suo design semplice, elegante e grafico, oggi così riconoscibile e unico.		Manenti+Cannolicchio	Log p. 184–189	IT	Simone Cannolicchio e Matteo Manenti lavorano nel campo del design di prodotto da molti anni spaziando dal packaging alla progettazione di interni fino al signpainting. Cofondatori del gruppo di metadesign Dorothy Gray e del coworking Labo Labo, si misurano costantemente con progetti in svariati settori convinti che questa diversità possa arricchire il percorso per il prossimo traguardo.
			EN					EN	Simone Cannolicchio and Matteo Manenti have been working in the product design field for many years, going from packaging to interior design and signpainting. Co-founders of the Metadesign Group Dorothy Gray and of the Coworking Labo Labo, they constatly measure themselves with projects in various sectors convinced that this diverseness can enrich the way to the next goal.
						2DB Design	Sunny p. 196–201	IT	2DB Design è la sigla sotto la quale operano Mara Picco e Roberto Foschia. La prima nata a Lussemburgo nel 1975, laureata in Disegno Industriale all'Istituto Europeo di Design di Milano, ha completato la sua formazione con un master in Marketing e Comunicazione all'Accademia di Comunicazione di Milano. Il secondo è nato in Friuli nel 1948. Designer presso il Centro di Ricerche e Design della SELECO/ Zanussi, ha uno studio proprio dal 1986. Nel 1973 ha ottenuto il premio “Sehen und Horen - Design und Kommunikation” per il televisore Q9”. Due professionisti diversi e complementari che operano insieme con successo dal 2004, occupandosi di Design, Interior e grafica.
	Tomoya Tabuchi	Kiyumi p. 66–73	IT	Tomoya Tabuchi, nato nel 1974 a Tochigi, in Giappone, si è laureato in living design alla Kuwasawa Design School nel 1997. Dopo aver lavorato come progettista presso un'azienda giapponese di arredo, disegnando alcuni prodotti originali e sviluppando prodotti progettati da designer internazionali, è diventato indipendente nel 2010. Il primo progetto firmato Tomoya Tabuchi è il tavolo Tee, presentato nel 2011 da Interiors, un'azienda giapponese. La sua attività comprende prodotti di design, di grafica e direzione artistica. Ha ricevuto il Premio Vico Magistretti, finalista (2007), ELLE DÉCOR Young Japanese Design Talent (2012), Good Design Award (2014/2018), Architizer A+Awards (2016).					2DB Design is the brand under which work Mara Picco and Roberto Foschia operate. The first one was born in Luxemburg in 1975, graduated in Industrial Sketch to the European Institute of Design in Milan, she has then completed her formation with a master in Marketing and Communication to the academy of Communication in Milan. The second was born in Friuli in the 1948. Designer at the Research Centre and Design of the SELECO / Zanussi, he works as designer since 1986. In 1973 he has been awarded at “Sehen und Horen – Design und Kommunikation” for the television Q9. They’re quite 2 different and complementary professionals which work together with success since 2004, and they deal with Design, Interiors and Graphics.
			EN	Tomoya Tabuchi, born 1974 in Tochigi, Japan, graduated in living design at Kuwasawa Design School in 1997. After working at Japanese furniture firm on the planning, designing original products, developing products designed by overseas designers, he became independent in 2010. In 2011, Tee table was debuted from Interiors (Japanese firm) as his first design after independence. His activity includes designed products, graphic design and art direction. He has received Premio Vico Magistretti, shortlist for prize (2007), ELLE DÉCOR Young Japanese Design Talent (2012), Good Design Award (2014/2018), Architizer A+Awards (2016).					
	Welling Ludvik	Màni Armshell p. 50–57 Màni p. 58–65	IT	Hee Welling (1970, Copenaghen) e Gudmundur Ludvik (1974, Reykjavik) hanno entrambi profonde radici nel Design e nelle tradizioni del mestiere scandinavi. Si sono incontrati alla Danish Design School di Copenhagen e da allora condividono uno studio. Nel 2010 hanno fondato la Welling/Ludvik per unire i loro sforzi e migliorare maggiormente il loro design. Hee Welling ha una laurea in Furniture Design conseguita presso la DDS. Gudmundur Ludvik ha un background come falegname e scultore acquisito presso The Icelandic Academy of Arts. Anche lui possiede una laurea in Furniture Design della DDS.					
			EN	Hee Welling (1970, Copenaghen) and Gudmundur Ludvik (1974, Reykjavik,) both have deep roots in the Scandinavian design and crafts tradition. They met at the Danish Design School in Copenhagen and have since been sharing a studio. In 2010 they founded Welling/Ludvik to combine their efforts and improve their design even further. Hee Welling has a degree in furniture design from DDS. Gudmundur Ludvik has a background as a carpenter and a sculptor from The Icelandic Academy of Arts. He also holds a degree in furniture design from DDS.

Pulizia e manutenzione: contattare il fornitore al sito www.flukso.it/ Cleaning and maintenance: contact the supplier through website www.flukso.it .	Resistenza al fuoco/ Flame resistance: Solidità alla luce/ Light fastness: Resistenza all'abrasione/ Abrasion resistance: Solidità allo sfregamento/ Fastness to rubbing:	EN 1021-1/2, BS 5852-5, CA TB 117-2013, NFP 92-507 (M2), UNI 9175 (1IM) UNI EN ISO 105-B02 (6) UNI EN ISO 12947-2 (≈ 100.000 Martindale) UNI EN ISO 105-X12 (a secco/dry rubbing 5), UNI EN ISO 105-X12 (a umido/wet rubbing 5)
---	--	---

Pulizia e manutenzione: per pulire macchie o gocce di liquido asciugare delicatamente l'area interessata con un panno inumidito d'acqua tiepida. Fare attenzione a non bagnare eccessivamente l'area, altrimenti tamponare ulteriormente con un panno asciutto. Consigliamo di non stroinare mai la superficie troppo energicamente./ Cleaning and maintenance: to clean stains or drops of liquid, gently wipe the affected area gently with a cloth dampened with warm water. Be careful not to wet the area excessively, otherwise dab with a dry cloth. We recommend never rubbing the surface too hard.	Resistenza al fuoco/ Flame resistance: Solidità alla luce/ Light fastness: Solidità allo sfregamento/ Fastness to rubbing:	BS 5852-0/1, CA TB 117-2013, IMO FTP 307-8 UNI EN ISO 105-B02 (8) UNI EN ISO 11640 (a secco/dry rubbing 4-5), UNI EN ISO 11640 (a umido/wet rubbing 4-5)
