# Inside the Urban Industrial concept

Ispirati a un look abitativo, quello dell'Urban style, che rispecchia il modo di vivere attuale, un concetto giovane che fonda le sue radici sul recupero di spazi di "archeologia industriale" trasformati in residenze di grande fascino. La declinazione di "Urban industrial concept" contemporanea si esprime in spazi aperti, dedicati al vivere quotidiano in totale libertà, con una connotazione sobria e creativa.

Un ambiente che esalta le ultime collezioni, con divani, tavoli e mobili di ampie dimensioni, accostati a complementi di piacevole comfort destinati a una maggiore funzionalità, dove si fondono vari elementi in una sapiente coerenza progettuale che valorizza il contesto e ne determina l'unicità delle caratteristiche.

*Furniture inspired by a residential look, that of the Urban style which reflects our contemporary lifestyle: a recent trend rooted on the recovery of spaces, an "industrial archaeology": work-spaces transformed into striking living spaces. The contemporary interpretation of "Urban industrial concept" is best expressed through open spaces dedicated to daily living in total freedom, with a sober yet creative character.*

*This is the ideal environment to showcase our latest collections: with sofas, tables, and large furniture combined with pleasantly comfortable accessories, intended for maximum functionality. Various elements blend together through a coherent design, able to enhance the whole and to highlight the uniqueness of all of its features.*

# Oasi: emphatic, soft

“ Il divano completa la collezione Oasi. La cintura serve per enfatizzare le morbidezze. Perché là dove la cintura stringe fuoriesce la parte morbida del divano. Questi effetti di pieghe per noi sono poesia. Sono inaspettate, sono qualcosa di emozionante. La maggior parte dei nostri prodotti sono trattati in questa maniera.

È bello, enfatico, morbido, c'è una sensazione, prima di sedersi, deve essere accogliente. "The sofa completes the Oasi collection. The belt around it is used to emphasize its softness, since where the belt is tighter, the softer part of the sofa is exposed. These crease effects are poetry for us. They are unexpected, they are something exciting. Most of our products are given this treatment.

It is beautiful, emphatic, soft. It transmits a feeling: it must be welcoming even before sitting down".

# How a myth is born

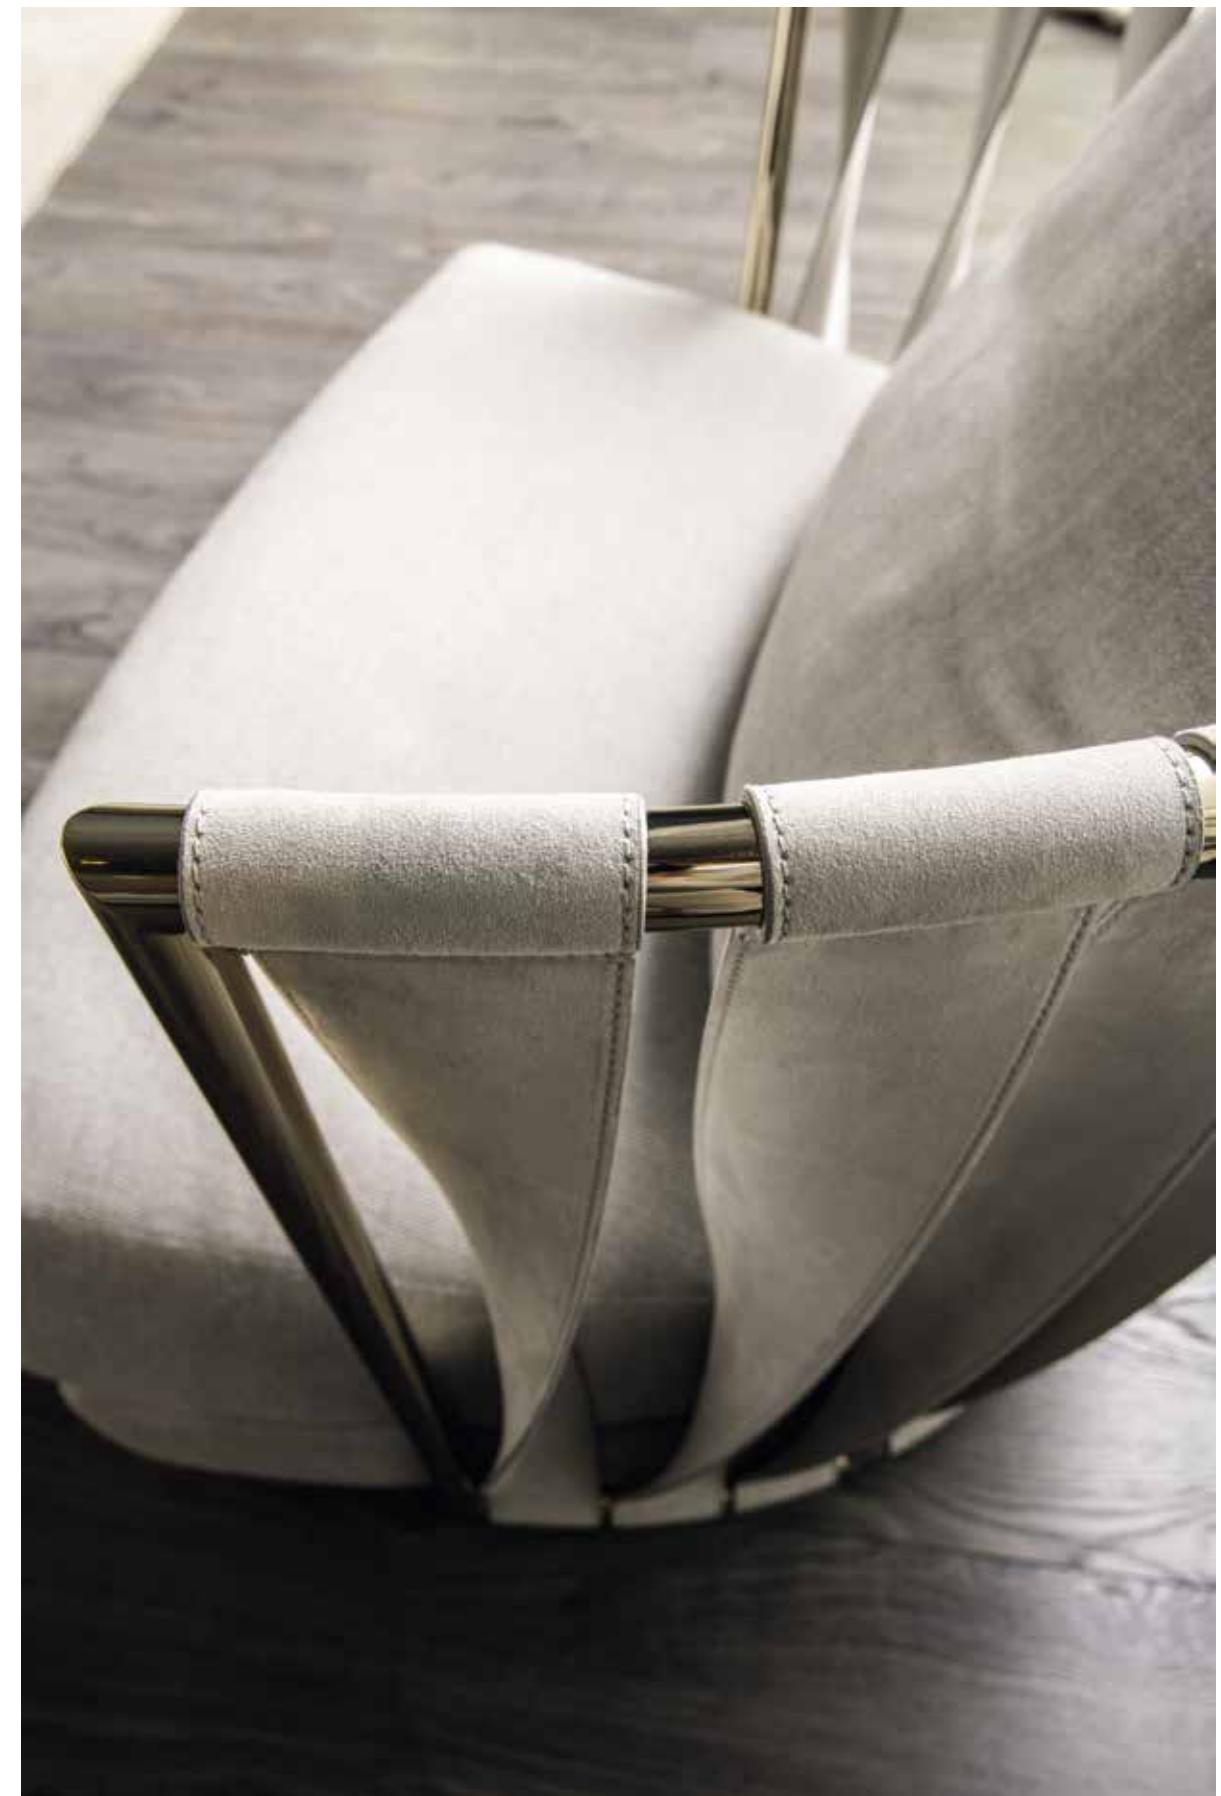

“

*Per il design della Twist si è partiti dall'idea di creare un oggetto di grande impatto e gusto estetico. L'eleganza che nasce da un tratto delicato e moderno è la caratteristica distintiva della collezione”.*

*Afferma lo studio di design Castello Lagravinese, ideatore della poltrona e divano Twist: “Questo progetto è nato in modo del tutto casuale, mentre guardavamo la vetrina di un negozio di scarpe nel lounge di un aeroporto: sapendo che potevamo contare sull'esperienza di Cantori e sulla perizia dei suoi artigiani nella lavorazione del ferro, abbiamo “vestito” la struttura metallica del divano e della poltrona con fasce di nabuk intrecciato, creando così un chiaroscuro davvero particolare, molto difficile da imitare.*

*“For the design of Twist armchairs, we started from the idea of creating an object with great aesthetic impact and value. An elegance deriving from delicate yet modern lines is the distinctive feature of this collection. This is particularly significant nowadays, since we are oriented more than ever towards foreign markets.” The design studio Castello Lagravinese, creator of the Twist armchair and sofa, further explains that: “This project was born in a completely casual way, while we were looking at the window of a shoe shop in an airport lounge: we knew that we could count on Cantori's thirty-year experience, and on the skill of its artisans working with iron. So, we “dressed” the metal structure of the sofa and the armchair with woven nubuck bands, thus creating a very particular chiaroscuro, impossible to imitate.*

*Each piece of furniture interacts with the rest of the elements through a free play of composition and of colours.*

CANTORI

Il ferro battuto, l'elemento per cui Cantori è famosa, riscoperto e reinterpretato, è inserito nei nuovi progetti come una lavorazione radicale e primordiale.

Il metallo, sapientemente forgiato dalla mano dell'uomo, abbinato a essenze naturali e preziose lacche caratterizzano la nuove proposte.

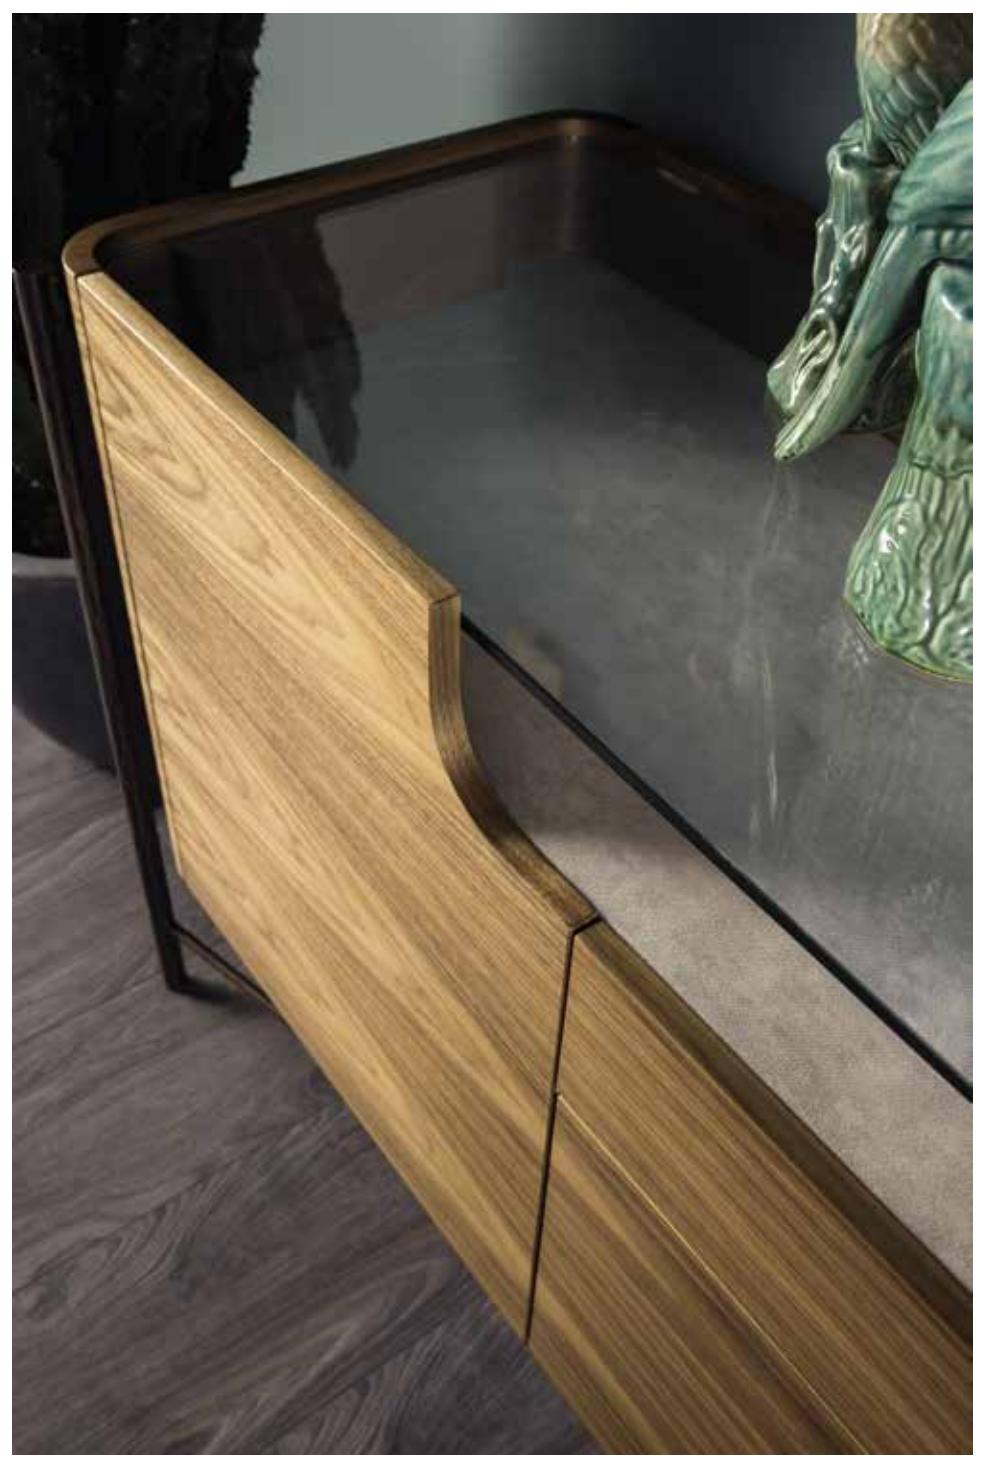

Sono forme che non sono mai le stesse, sono sempre diverse come sculture.

*Wrought iron, the material for which Cantori is most famous, is rediscovered and reinterpreted, and it is included in our new projects as part of a manufacturing process that is both innovative and traditional.*

*The metal, skilfully forged by the hands of man, is combined with natural essences, and precious lacquers characterize our new products.*

*These shapes are never the same: they are always different and unique, like sculptures.*

# The origins of our design philosophy

Le ultime creazioni nascono da una brillante intuizione, modellate con una consapevolezza contemporanea dall'architetto e designer Maurizio Manzoni.

La collezione Avantgarde interpreta una rinnovata filosofia arredativa, un mix di ragione ed emozione, funzionalità ed estetica. All'interno di uno spazio minimal esistono solo loro, cabinet, madie, divano, tavoli e tavolini, letti, compagni indiscutibili dei nostri momenti più genuini, all'interno delle nostre intimità. Fresche riletture di primordiali creazioni, attimi della storia Cantori che risuonano rinnovati che prendono vita dall'abilità antica di maestri artigiani.

Lo spazio si riempie di presenze eleganti e solide, diffondendo una grande forza identitaria.

*Cantori's latest creations arise from a brilliant intuition of Sante Cantori, and have been developed by the contemporary taste of architect and designer Maurizio Manzoni.*

*The Avantgarde collection interprets a novel furnishing philosophy, a mix of reason and emotion, functionality and aesthetics. A streamlined space entirely occupied by cabinets, cupboards, sofas, tables, coffee tables, and beds – undisputed companions of our most genuine and intimate moments. Fresh reinterpretations of primordial creations, they represent concrete episodes of Cantori's history that resonate anew, coming to life thanks to the ancient skills of our master craftsmen.*

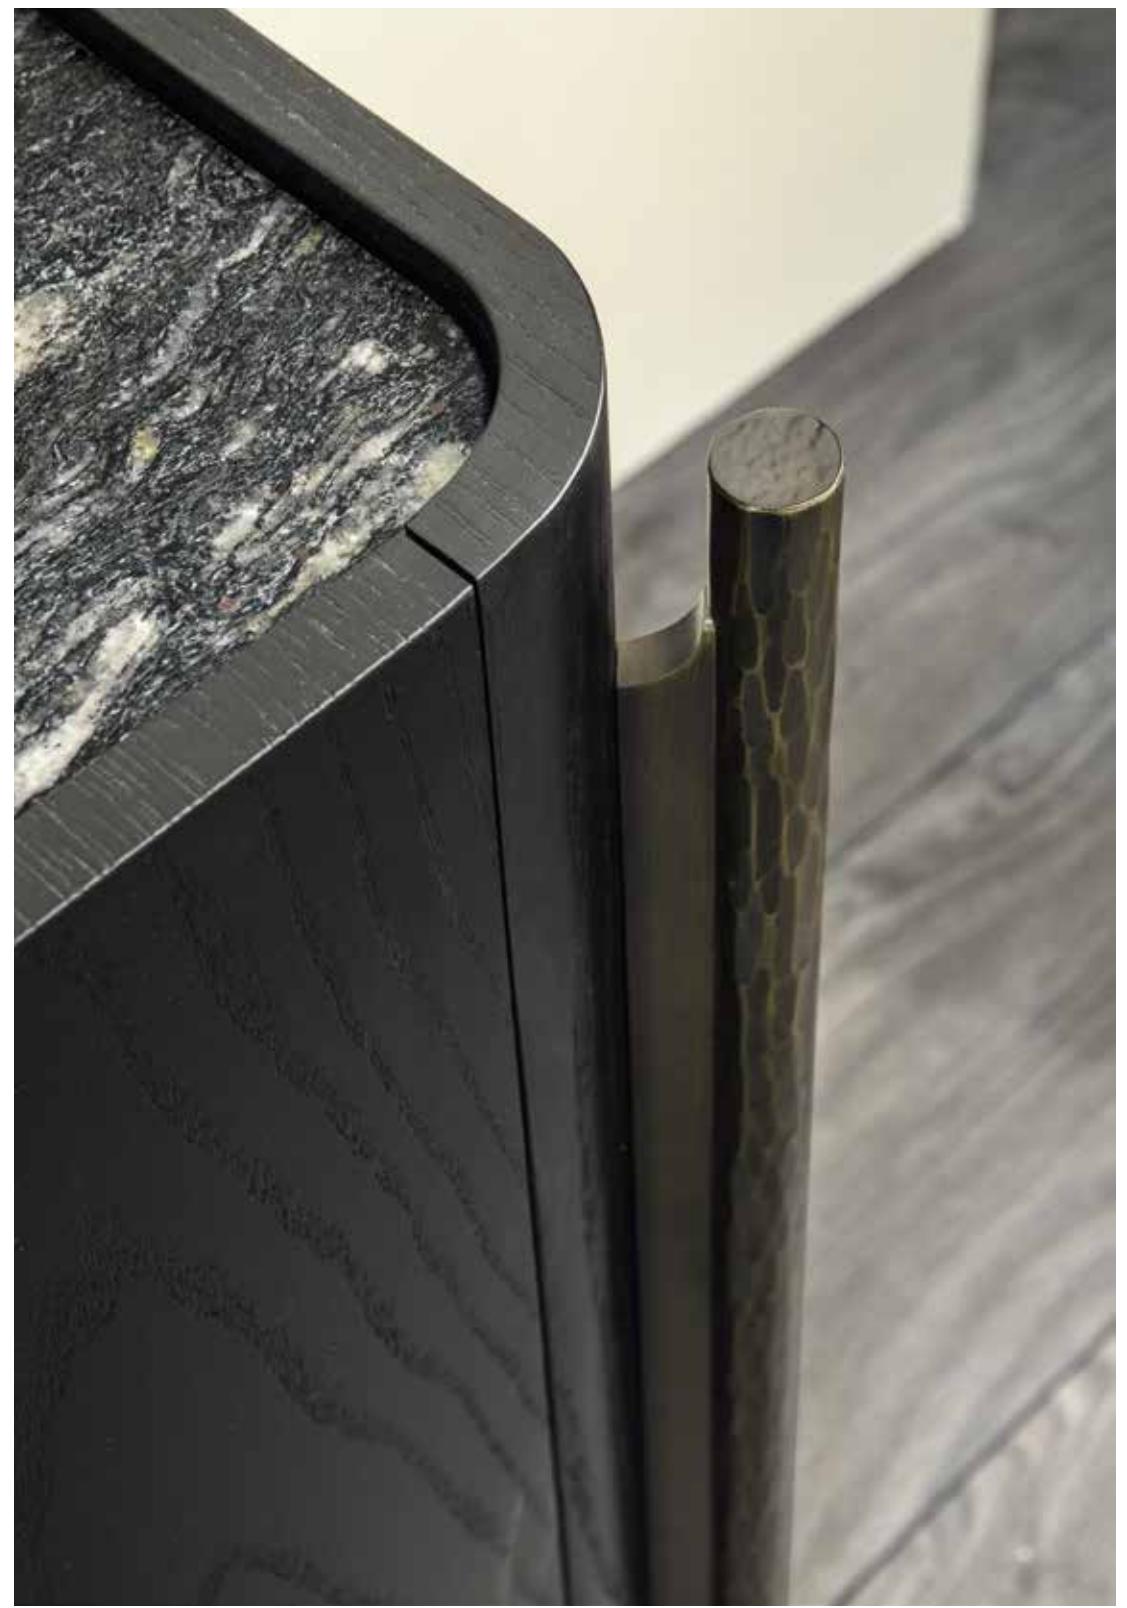

*The space is thus filled with elegant and solid presences, which emanate a distinct sense of identity.*

# The iconic soul of Athenae

“I prodotti hanno sempre qualcosa di morbido e di avvolgente. Se si osservano bene hanno anche un riferimento alla moda o altri elementi come una cintura magari un anello nel quale viene incastonato un diamante. - Spiega l'architetto Maurizio Manzoni, designer delle ultime collezioni di successo di Cantori - Questo per me è l'anello in cui il mobile-gioiello poggia sulla base, che poi potrebbe essere anche la base di una scultura. Anche per i tre tavolini del modello Atenae, il concetto è sempre lo stesso. Qualcosa che avvolge...”

"Our products always have soft and enveloping character. If you look closely, they also have a visual reference to the world of fashion, by means of elements such as a belt, or perhaps a ring in which a diamond is set".

Thus explains the architect Maurizio Manzoni, designer of Cantori's latest successful collections. "For me this represents the ring in which a piece of jewellery rests, which could then also be the base of a sculpture. Even for the three Atenae coffee tables, the guiding concept is the same. Something that envelops ...
