Carpanelli è un'azienda "evergreen" che produce mobili di ebanisteria moderna reinterpretando la tradizione in maniera innovativa. Si distingue per la riconoscibilità del suo design e per le lavorazioni di alta ebanisteria. La nostra proposta stilistica sintetizza un equilibrio fra eleganza raffinata e impatto emotivo. Il concetto di lusso viene interpretato come capacità di realizzare soluzioni d'arredo personalizzate che valorizzano la nostra qualità artigianale e cura del dettaglio.

Carpanelli is an "evergreen" company that produces modern cabinet-making furniture by reinterpreting tradition in an innovative way. It stands out for the recognizability of its design and for the high cabinet-making workmanship. Our stylistic proposal synthesizes a balance between refined elegance and emotional impact. The concept of luxury is interpreted as the ability to create customized furnishing solutions that enhance our artisan quality and attention to detail.

Il Premio Carpanelli Ideasxwood è un concorso internazionale che ci permette di guardare al futuro valorizzando le nostre radici, coniugando tradizione e innovazione.

Progettare un oggetto di design partendo dalla conoscenza e valorizzazione dei legni pregiati è un avvincente percorso progettuale che ha messo alla prova numerosi giovani ed emergenti designers da una parte e studenti provenienti dalle migliori università e accademie di design dall'altra.

Numerosi sono stati i progetti presentati, le migliori proposte sono state selezionate e premiate dalla Giuria. Dei progetti più promettenti sono stati realizzati i prototipi e fanno ora parte delle nostre collezioni ufficiali.

IDEASxWOOD
A CONTEST BY TABU®

The Carpanelli Ideasxwood Award is an international competition that allows us to look to the future by enhancing our roots, combining tradition and innovation.

Designing a design object starting from the knowledge and enhancement of precious woods is a compelling design process that has put numerous young and emerging designers to the test on the one hand and students from the best universities and design academies on the other.

Numerous projects were presented, the best proposals were selected and awarded by the Jury. Some of the most promising designs have been prototyped and are now part of our official collections.

C CARPANELLI 1919

A NEW TOUCH OF ELEGANCE

È uno stile d'arredo che veste lo spazio con fascino e suggestione, predilige texture morbide al tatto e dall'elevata qualità estetica, abbina legni pregiati, metalli, marmi e finiture materiche; usa pelli, cuoio e tessuti morbidi e materiali opachi, generando spazi sofisticati, per nulla banali seppur minimali.

La scelta dei materiali è un elegante percorso cromatico che attraversa la ricchezza dei toni neutri e naturali.

Si tratta di una esplorazione tattile e materica dalle superfici naturali.

Una raffinata esperienza visiva dettata dalla ricercatezza degli elementi "hand made" e dagli effetti della rifrazione della luce sui materiali naturali.

It's a furnishing style that dresses the space with charm and suggestion, preferring textures that are soft to the touch and with a high aesthetic quality, combining precious woods, metals, marbles and material finishes; it uses leather and soft fabrics and opaque materials, generating sophisticated spaces, not at all trivial even if minimal.

The choice of materials is an elegant chromatic path that crosses the richness of neutral and natural tones.

It is a tactile and material exploration of natural surfaces.

A refined visual experience dictated by the refinement of the "hand made" elements and by the effects of the refraction of light on natural materials.
